

about kg³

kg³ was founded by specialist professionals with procurement, logistics and consulting backgrounds in 2013. We aim to offer innovative, lean and easily manageable technology solutions. Competitiveness and time-efficiency are at the heart of what we do and is our competitive advantage.

Besides a comprehensive SaaS suite, kg³ offers consulting and interim management in the areas of sourcing and procurement.

spot quote

Use the kg³ spot-quote tool for urgent one-off premium shipments or for project-based freight movements. With a simple streamlined process you can launch a rate-request in minutes. The tool also includes an optional approval process helping you keep premium freight costs under control.

benefits

- simple, quick and efficient process for urgent requests
- systematic use of competition achieves lower rates
- approval process brings premium cost under control
- reporting and analysis brings further improvement
- full transparency trail in line with audit and compliance standards
